

Pampered Pup  
Rhinestone Collar

In ancient Egypt dogs were treated royally. They were lavished and respected throughout life. In death they often received burial in family tombs complete with plenty of golden goodies for the afterlife.

Today's pampered pooch may get day trips to the spa, custom diamond studded collars or a warm spot in a designer pet carrier. So, before the flash bulbs pop and the velvet rope is lifted make sure your pup is prepared with these spoils:

# Prestigious Plano Pups

One dog owner in Miami reportedly spends over 4,000 a month on bikinis, pearls, dresses and make-up for her pooch. She has her own special pink race car bed, bathroom and TV; this lucky pooch lunches daily on fresh grilled chicken breast at the exclusive Shore Club in Miami.

Plano West residents, the Goenaweins don't pamper their pooches to that extreme but Isabella and Precious are definitely appreciated.

Isabella is a 2½ pound, 2 years old Chihuahua. The Yorkie, Precious is 1½ lbs. and only 5 months old but will never gain much more.

Mrs. Goenawein purchased the precious pups from breeders in the metro area who specialize in teacup dogs. These babies were bred for show.

Precious and Isabella enjoy riding in the boat at the lake house on weekends. They like

the country living and fresh air. They enjoy chasing squirrels although the squirrels are larger. Their vacations include Destin, Florida and the Smokey Mountains. They enjoy the beach, but they do not care for blue grass music in the mountains. The two never travel without their faux mink blankets.

The tiny duo enjoys shopping with Cheryl at Neiman Marcus where they are well-known celebrities to the employees. The pups prefer Juicy Couture, but their prized possessions are their matching mink hats.

The tiny teacups are like family to the Goenaweins. Watching the puppies play keeps Cheryl and Wes young. Their children are 28 and 16. In two years, the youngest will go to college. They will be empty nesters but will still have their other babies. These Plano pups are truly pampered. They travel, run errands, wear mink, vacation, and above all, they truly enhance the Goenawein's lives.

## *Chief Canine Officer*

Miss Lucie Bear Bouvier is a true "rags to wags" Cinderella story. Lucie, a Bouvier des Flanders mix, was found by Animal Control Services in 2005. Hours before a scheduled euthanasia, a rescue group pulled her from the Longview shelter.

Lucie is now the CEO (Canine Executive Officer) and Proprietor of Every Dog's Day Canine Resort & Day Spa in Frisco.

Wanting the best for her adopted dog, Lori Myer built a luxury dog resort where she can play and swim with her friends all day.

Every Dog's Day offers an all-suites luxury hotel featuring custom-made beds, designer linens and accessories, television, movies, freshly seared filet mignon dinners, supervised group play, filtered water service, storytelling, and more.

## Frisco's Newest Luxury Hotel And Day Spa And It's Ceo
